More than 2 years of experience as a Full Stack Developer. In a video game studio, I worked with Unreal Engine creating tools and gameplay, in addition to developing their official website. I have built frontend and backend solutions for several projects, combining design, performance, and functionality.

PROFESSIONAL EXPERIENCE

Xitry Game

Full Stack Developer | Unreal Programmer

Santiago de Cuba, Cuba

June 2025 – January 2026

- Developed features and systems within the Unreal Engine, collaborating in the creation of internal tools and game logic.
- Designed and developed the studio's official website using Astro and Tailwind CSS, ensuring a fast, modern, and accessible experience.
- Deployed the website on Cloudflare Pages with full GitHub integration, automating the publishing flow through CI/CD.
- Collaborated with the art and design team to maintain visual consistency between the game and its web presence. [Site link](#)

GH-Profile (Personal project)

Full Stack Developer

Santiago de Cuba, Cuba

July 2024

- Developed a web application that allows viewing GitHub profiles in a clear, attractive, and minimalist way.
- Used Svelte as the main framework for its performance and simplicity, along with Tailwind CSS for responsive visual design, and integrated the public GitHub API to fetch and display real-time data (repositories, followers, bio, etc.).
